## - INDEX - 1957

published by

AMERICAN FOUNDRYMEN'S SOCIETY  
Golf and Wolf Roads, Des Plaines, Illinois

JAN.-DEC.  
VOL. 31-32

Month Page

### A

Abrasives, National Safety Council	Dec.	1
Acid Slag Analysis Correction	March	24
Ahles, R. D., X-rays Speed Chemical Analysis	July	45
Air conditioning Foundry Hot Spots \$300/Man: Geo. P. Edwards & Roy Swain	Feb.	65

#### AIRCRAFT CASTINGS

Aluminum Alloy, High Purity, Solves Engineering Problems (bonus): Alan R. DeRoss	May	69
Aluminum Alloy, High Strength, Replaces Forging	June	30
Aluminum Investment Castings in Aviation	Dec.	2
Casting in Sand to Exceed Aircraft Specs (bonus): M. C. Flemings, P. J. Norton & H. F. Taylor	May	84
Jet Age by Misco	Oct.	54

Air Pollution Collector, Portable, Traps Brass Fumes: Robt. Langsenkamp	Nov.	54
Air Pollution Control, Federal Aid for	Sept.	3
Air System/Maintenance (ff)	Jan.	71
Air Systems, Compressed, Maintenance: Edmond C. Powers	Jan.	38
Allicast Non-Ferrous Metals Co. Uses Infra-Red Heaters	Dec.	34
Alloy Casting Institute Elects Officers	Aug.	70
Alloy Steel Foundry Co. Specializes & Grows: Don Volk	Nov.	38

#### ALUMINUM

in Automobiles (efr)	March	27
British Report on Alloy and Mold Reactions	March	26
Casting in Sand to Exceed Aircraft Specs (bonus): M. C. Flemings, P. J. Norton & H. F. Taylor	May	84
in Ferro-Silicon	Nov.	82
Forming Intricate Passageways with Removable Sheathed-Tube Cores: Robert F. Dalton	May	91
High Purity Alloy Solves Engineering Problems (bonus): Alan B. DeRoss	May	69
High-Strength Alloy Replaces Forging	June	30
Investment Castings in Aviation	Dec.	2
Slugs made by Die Casting Machine	Feb.	71
Vibrating Strength Into Metals: A. H. Freedman & J. F. Wallace	April	64

American Brake Shoe Co., Southern Wheel Div., Combines Pour-Feed in Sprue-Riser	Feb.	55
American Die Casting Institute, Annual Meeting	Nov.	35

#### AMERICAN FOUNDRYMEN'S SOCIETY

Apprentice Contest, Robt. E. Kennedy Memorial	Jan.	61
Apprentice Contest Rules	Aug.	2
Apprentice Contest Winners	June	75
Board of Directors Names Slichter and Drury	April	30
Buyers Directory (efr)	Oct.	24
Buyers Directory, Managed by C. G. Fuller	Dec.	27

Castings Congress & 1st Engineered Castings Show		
Alloys to X-rays	March	55
Awards of Scientific Merit	May	56
Completes Program for	April	38
Directory of Exhibitors 1st Engineered Castings Show	May	62
Foundry-Customer: 1st Engineered Castings Show	April	57
Gold Medal Awards	May	57
News Story	June	77
News Story	June	44
News Story-Part 2 Technical Program	July	26
Overseas Foundry and Scientists Visit	April	75

### Key to Abbreviations

efr . . . . . editor's field report  
ff . . . . . foundry facts data sheet & foundry facts notebook  
oms . . . . . on management side  
q&a . . . . . questions & answers  
shape . . . . . the SHAPE of things

Month Page

AFS Castings Congress (Continued)		
Program (bonus)	April	39
Talking to Your Customers	Jan.	35
Technical Program	May	52
Three Steps Toward Cincinnati	Feb.	61
Chapter Officers Conference	Aug.	54
Die Casting & Permanent Mold Div. Established	Sept.	3
Directors and Officers	May	58
Foundry Instructors Seminar 2d Wisconsin	Aug.	55
Regional Foundry Conferences		
All Canadian: Geo. A. Mott	Jan.	56
California: J. H. Schaum	May	99
East Coast	June	86
Michigan	Feb.	22
Michigan	Dec.	64
Missouri Valley Conference: J. H. Schaum	Nov.	77
New England (16th)	Jan.	53
New England (17th)	Dec.	63
Northwest (7th): Norman E. Hall	Jan.	55
Northwest (8th)	Dec.	63
Purdue Metals Castings	Jan.	54
Southeastern: J. H. Schaum	April	60
Wisconsin	April	61
Technical Council meeting	Aug.	54
Training & Research Institute		
Aid to Industry	Jan.	32
Courses Scheduled	June	85
Program Underway	March	2
Registers 400 Men	Sept.	55
Supervisor & Courses	Dec.	62
	Nov.	53

American Society for Metals Award to John W. Bolton	Aug.	70
Analysis, Chemical, X-rays Speed: R. D. Ahles	July	45
Antifreeze Techniques for CO <sub>2</sub> Process: Roy McIlrath	Jan.	36
Appeal to Foundry Management: J. A. Wagner	June	73
Armco Steel Corp., Sheffield Div., Weighs Molten Metal	Oct.	39
Arwood Precision Casting Corp. Supercast Process	Dec.	2
Automated Sand Mixing at Cadillac: J. R. Young	Nov.	36

### B

Bendix Foundries Use Graphite Spray	March	36
Bewig, Earl: Steel Foundry Speeds Coremaking	Aug.	52
BIBLIOGRAPHIES		
Designing Metal Castings	June	70
Graphite Molds (bonus)	May	68
Gray Iron Shrinkage vs. Molding Sand	Sept.	49
Plastic Patternmaking	March	52
Titanium Casting (bonus)	Aug.	48
Vibrating Metals	April	74

Month Page

Big Lift in the Foundry	April	36
Bishop, Warner B.: Study Needs Before Using New Methods	May	117

#### BONUS SECTIONS

AFS Program (61st Congress and 1st Engineered Castings Show)	April	39
Calendar, 1957	Jan.	41
Casting in Sand to Exceed Aircraft Specs: M. C. Flemings, P. J. Norton, & H. F. Taylor	May	84
Castings Engineered for Industry	May	63
Die Casting: Gustav Lieby	Dec.	35
Guide to Engineered Castings	June	55
Heat Treating in Malleable Iron Foundries: J. T. Bryce, L. E. Emery, F. W. Jacobs, L. R. Jenkins, G. B. Mannweiler, Wm. Zeunik	Feb.	39
High Purity Aluminum Alloy Solves Structural Engineering Problems: Alan B. DeRoss	May	69
Making Quality Brass and Bronze Castings: R. A. Colton & F. L. Riddell	July	29
New Casting Alloy Combines High Strength and Corrosion Resistance: G. L. Lee	May	74
Plastics, Revolution in Patternmaking: E. J. McAfee, & K. A. Clinton	March	37
Sealing Core Boxes Against Blow-By: Richard L. Olson	Oct.	41
3 Steps to Profitable Use of Molding Machines: J. M. Leaman & D. C. Ekey	Nov.	41
Stop Foundry Accidents	Sept.	35
Technology for Casting Titanium: G. H. Schipperit, R. M. Lang, and J. G. Kura	Aug.	33
Vacuum Die Casting Opens New Frontiers in Design: David Morgenstern	May	80
Boride Coating of Iron and Steel Reduces Attack by Molten Aluminum	May	39

#### BRASS & BRONZE

Melting (ff)	Dec.	71
Portable Collector Traps Fumes at Source: Robt. Langsenkamp	Nov.	54
Quality Castings (bonus): Robert A. Colton & F. L. Riddell	July	29
Vibrating Strength Into Metals: A. H. Freedman & J. F. Wallace	April	64
We Owe Success to CO <sub>2</sub> : Hans Jacob	March	32
Briwa, Charles: Leaking Air Inflates Cost	Aug.	49
Bronze, High-Strength Superston	Aug.	23
Brooks, M. E.: Tips on Casting Magnesium	March	65
Bryce, J. T.: (bonus) Heat Treating in Malleable Iron Foundries	Feb.	39
Buchanan, William Y.: A New Idea—Warm Blast Cupolas	Jan.	40
Buyers Directory, AFS, See American Foundrymen's Society		

### C

Cadillac Foundry—Sand Control: J. R. Young	Nov.	36
Cadillac Foundry, Shooting Cast Iron Chips (efr)	Nov.	24
Calendar, 1957 (bonus)	Jan.	41
Camera in the Foundry (efr)	June	17
Canadian Foundry Departs from Standard Practices: L. G. Day	Nov.	4
Cannon, George W., Sr.: Fiat Carbon Dioxide (see CO <sub>2</sub> )	Dec.	47
Carbon Refractories in Cupola Construction: G. B. Tatum	Oct.	58
Carbon Sand (efr)	Nov.	24
Cast Iron, Preparing for Microscopic Work: J. R. Drier	Sept.	58
Cast Iron Chips at Cadillac Foundry (efr)	Nov.	24

	Month	Page
<b>CASTING</b>		
Applications, Guide to Engineered (bonus)	June	55
Defects: H. W. Dietert	Nov.	3
Design/11 Basic Rules (F)	May	133
Design, Idea-Exchange Creates: Geo. W. Schuller	Sept.	30
Design, Improve by Observing Stress-Strain: Ross L. Gilmore	Oct.	31
Magnesium, Tips on	March	65
New Alloy Combines High Strength and Corrosion Resistance (bonus): G. L. Lee	May	74
Replaces Forging in Outboard Crankshafts	Sept.	2
in Sand to Exceed Aircraft Specs: M. C. Flemings, P. J. Norton & H. F. Taylor (bonus)	May	84
Titanium in Powdered Graphite Molds (bonus): A. L. Feild & R. E. Edelman	May	64
Titanium, Technology for (bonus): G. H. Schipperit, R. M. Lang and J. G. Kura	Aug.	33
<b>CASTINGS</b>		
in Air Program: John H. Garrett	Aug.	5
Canadian Steel Foundries Ltd. Produces Largest Castings	Feb.	24
Congress & 1st Engineered Castings Show, see American Foundrymen's Society	May	63
Engineered for Industry (bonus)	May	63
Forming Intricate Passageways with Removable Sheathed-Tube Cores: Robert F. Dalton	May	91
Gray Iron, Mold Wall Movement: J. F. Wallace & E. B. Evans	Sept.	47
Heat Treating, Control Key to: L. R. Jenkins	Nov.	5
Jet Age, by Misco	Oct.	54
Making Quality Brass & Bronze (bonus): Robt. A. Colton & F. L. Riddell	July	29
Meeting Detroit Demands?: M. F. Garwood	Feb.	36
Stainless Steel, Small Foundry Specializes: Don Volk	Nov.	38
Cement Molds, Hardened by CO <sub>2</sub>	April	55
Census, 1954, of Gray Iron Foundries (oms)	March	3
Cermet for Thermocouple Protection Tube (efr)	May	27
Chain Slings, Maintenance (F)	Feb.	79
Charlotte, Mich. High School—\$50 Foundry	May	119
Char-Lynn Co. Solves Coring Problem	Feb.	2
Chemical Analysis, Acid Slag, Correction	March	24
Chemical Analysis (5 min) Speeds Steelmaking: Karl Jacobsen	Nov.	49
Chemical Analysis, X-rays Speed: R. D. Ahles	July	45
Chilean Foundrymen in U. S.	May	121
Chrysler Corp., Dodge Fdy., Builds Mechanized Cleaning Dept.: Cecil King	June	53
Chrysler Corp. Improves Castings	Feb.	36
Clean ng. Rooms, New Look: Cecil King	June	52
Clinton, K. A. & E. J. McAfee: Plastics, Revolution in Patternmaking (bonus)	March	37
CO <sub>2</sub> Arc Welding Shield	July	13
<b>CO<sub>2</sub> PROCESS</b>		
Antifreeze Techniques for: Roy McIlrath	Jan.	36
Hardening Cement Molds	April	55
Is It Necessary: Carl E. Wulff	Aug.	28
We Owe Success to: Hans Jacob	March	32
Welding Cuts Steel Repair Costs	Dec.	29
Coleman, Wm. B., Memorial Scholarship	Jan.	58
Collector, Portable, Traps Brass Fumes at Source: Robt. Langsenkamp	Nov.	54
Colton, Robert A.: Defects Due to Melting, Pouring and Solidification (bonus)	July	30
Compressed Air System, Leaking Air Inflates Cost: Charles Briwa	Aug.	49
Compressed Air Systems Maintenance: Edmond C. Powers	Jan.	38
Conveyor, Hook Line, Speeds Production in Calif. (Gaines Co.)	May	116
Conveyor System Increases Furnace Capacity	Nov.	23
Conveyors, Monorail, Move Foundry Materials: Ralph G. Wieland	Dec.	30
Conveyors, Pneumatic: Pipeline for Sand Handling: George Mott	June	49
Cooling Hot Shot for Shell Backing: A. J. Hall	March	58
<b>CORE</b>		
Boxes and Plastic Patterns (efr)	Feb.	31
Boxes, Sealing Against Blow-By: (bonus) Richard L. Olson	Oct.	41
Pour-Feed Combined in Sprue-Riser: Larry DeBoer	Feb.	55
Sheathed Tube, Forming Intricate Passageways: Robert F. Dalton	May	91
Soluble Wax, Solves the Impossible: C. W. Schwartz	Feb.	57
Study Needs Before Using New Methods: Warner B. Bishop	May	117
Coremaking, Steel Foundry Speeds: Earl Bewig & David McGowan	Aug.	52

	Month	Page
<b>COSTS</b>		
Cost Cutting with Grinding Wheels, Part 1: John A. Mueller	Feb.	62
Cost Cutting with Grinding Wheels, Part 2: John A. Mueller	March	34
Cost Cutting with Grinding Wheels, Part 3: John A. Mueller	April	58
Cost Cutting with Grinding Wheels, Part 4: John A. Mueller	June	71
Fuel, Solved by Infra-red Heaters	Dec.	34
Leaking Air Inflates: Charles Briwa	Aug.	49
Welding Process Cuts Steel Repair: H. T. Smith	Dec.	29
Crane Accidents Occur While Loading	Sept.	12
<b>CUPOLA</b>		
Cadillac Foundry Shooting Cast Iron Chips	Nov.	24
Construction, Use Carbon Refractories: G. B. Tatum	Oct.	58
Foundry Facts Notebook	Oct.	83
German, Blast Furnace Principle	May	2
Quality Control, Charting the Way to: Morris Gittleman	Feb.	58
Smoke Catcher (q & a)	Aug.	68
Warm Blast, New Idea: Wm. Y. Buchanan	Jan.	40
Water-Cooled, We Converted to: James McConville and Andrew Fischels	July	41
Water-Cooled, Cuts Costs at Ford	May	130
Cupro-Nickel Combines High Strength & Corrosion Resistance: G. L. Lee (bonus)	May	74
Curtis, C. B.: Permanent Molding Aids Mechanization Program	Nov.	83
Cut-Off Wheel Efficiency: Cost Cutting with Grinding Wheels, Part 3: John A. Mueller	April	58
Cut-Off Wheel Selection: Cost Cutting with Grinding Wheels, Part 4: John A. Mueller	June	71
<b>D</b>		
Dalton, Robert F.: Forming Intricate Passageways with Removable Sheathed-Tube Cores	May	91
Davis, J. A., D. E. Krause, & H. W. Lowmie, Jr.: Tin Is Not A Subversive Element in Gray Iron	May	96
Day, L. G.: Canadian Foundry Departs from Standard Practices	Nov.	4
DeBoer, Larry: Pour-Feed Combined in Sprue-Riser	Feb.	55
John Deere Waterloo Works Converts to Water Cooled Cupolas: James McConville & Andrew Fischels	July	41
Defects Due to Gating and Riser (bonus): R. L. Riddell	July	35
Defects Due to Melting, Pouring & Solidification (bonus): Robert A. Colton	July	30
Degassing, Non-Ferrous, Improves Metal Quality: E. A. Lange	Oct.	5
Dermatitis and Epoxy Resins (shape): H. J. Weber	May	118
De Ross, Alan B.: High Purity Aluminum Alloy Solves Structural Engineering Problems	May	69
<b>DESIGN</b>		
Design, 11 Basic Rules (F)	May	133
Design, Idea-Exchange Creates: Geo. W. Schuller	Sept.	30
Guide to Engineered Castings (bonus)	June	56
<b>DIE CASTING</b>		
Bonus	Dec.	35
Boride Coating of Iron & Steel Reduces Attack by Molten Aluminum	May	39
Controlling Gas Improves Quality	Nov.	61
Graphite Spray Speeds	March	36
Machine Makes Aluminum Slugs	Feb.	71
Vacuum, Opens New Design (bonus): David Morgenstern	May	80
Zinc, Solves Coring Problem	Feb.	2
Dietert, H. W.: Progress of European Foundries	Nov.	56
<b>DIETRICH'S CORNER: H. F. Dietrich</b>		
Dear Doc	Nov.	82
Efficiency Experts	Jan.	30
Good Foremen	Feb.	84
Good Old Days	May	120
King of Vulcans I	Aug.	75
King of Vulcans II	Sept.	72
Loafing, A Lost Art	July	59
Shortage of Engineers	Dec.	70
Socialized Medicine	April	82
Too Much Prosperity	June	4
Vanishing Craftsman	March	66
Diversification Speeds Growth of Western Foundry Co.: Robert Rushing	March	60
Drier, J. R.: Cast Iron, Preparing for Microscopic Work	Sept.	58
Ductile Iron—(See Nodular)		
<b>E</b>		
Edelman, R. E. & A. L. Feild: Powdered Graphite Molds Simplify Titanium Casting (bonus)	May	64

	Month	Page
<b>EDUCATION</b>		
Charlotte Mich. High School—\$50 Foundry	May	119
Wm. B. Coleman Memorial Scholarship	Jan.	58
Foundrymen Can Teach Youth Through JETS Program:	May	104
Max S. Hayes Trade School Dedicated	Dec.	61
Training Future Foundrymen (St. Louis Chapter): Ralph E. Johnston	March	62
Edwards, Geo. P. & Roy Swain: Air Conditioning Foundry Hot Spots, \$300/man	Feb.	65
Ekey, D. C. & J. M. Leaman: 3 Steps to Profitable Use of Molding Machines (bonus)	Nov.	41
Electronic Sandman, Meet: J. R. Young	Nov.	36
Emery, L. E.: Heat Treating in Malleable Iron Foundries (bonus)	Feb.	39
Engineered Castings, Guide (bonus)	June	55
Epoxy Resin Solvents (efr)	July	18
Epoxy Resins and Dermatitis (shape): H. J. Weber	May	118
Erhart, C. C., Jr., & Herbert Wagers: How Incentive System Brought Back Business	Jan.	57
Erhart, Chris, Fdy. & Mach. Co. Installed Wage Incentive System	Jan.	57
Evans, E. B. & J. F. Wallace: Rx for Swollen Gray Iron Castings	Sept.	47
<b>F</b>		
Feild, A. L. & R. E. Edelman: Powdered Graphite Molds Simplify Titanium Casting (bonus)	May	64
Felten, Henry: Scrap Control (Penn. State Reg.)	Sept.	28
Ferro-Silicon, Aluminum in Ferrous Castings Shipments, U. S. Bureau of Census Chart	April	76
Ferrous and Nonferrous Castings Shipments (chart)	March	64
Fiat: George W. Cannon, Sr.	Dec.	47
Fischels, Andrew: We Converted to Water-Cooled Cupolas	July	41
Five Minute Wet Analysis Speeds Steelmaking: Karl Jacobsen	Nov.	49
Flemings, Merton C., Patrick J. Norton & Howard F. Taylor: Casting in Sand to Exceed Aircraft Specs (bonus)	May	84
Forest City Foundries Co. Monorail Conveyors: Ralph G. Wieland	Dec.	30
Fork Lift Operator's Guide: (F)	April	93
Fork Lift Trucks, Big Lift in Foundry	April	36
Fork Lift Trucks: Step in Mechanization: E. O. Spahr	April	34
Forming Intricate Passageways with Removable Sheathed Tube Cores: Robt. F. Dalton	May	91
<b>FOUNDRY</b>		
Accidents (bonus)	Sept.	35
\$50 Foundry, Charlotte, Mich. High School	May	119
Heating with Infra-Red Heat	Dec.	34
Layout, Use of Molding Machines (bonus): J. M. Leaman & D. C. Ekey	Nov.	48
Foundry Bard (See Walkins, Bill)		
Foundry Educational Foundation Colle. Industry Program	March	31
Foundry Educational Foundation: C. V. Nass Elected President	May	36
Foundry Equipment Manufacturers' Assn. Annual Mtg., Election of Officers	Dec.	75

Older Workers (oms)	Aug.	3
Profit Sharing (oms)	Oct.	3
Mannweiler, G. B. (bonus): Heat Treating in Malleable Iron Foundries	Feb.	39
Marketing, 4-Step Plan to Sell Castings: R. C. Meloy	Oct.	36
<b>MATERIAL HANDLING</b>		
Big Lift in Foundry	April	36
Conveyor, Hook Line, Speeds Production	May	116
Conveyor System Increases Furnace Capacity	Nov.	23
Cooling Hot Shot for Shell Backing: A. J. Hall	March	58
Fork Lift Trucks: First Step in Mechanization: E. O. Spahr	April	34
Foundry Facts	June	109
Hints On	Sept.	21
Monorail Conveyors: Ralph G. Wieland	Dec.	30
Moving Foundry Materials, Observation, Evaluation, Mechanization: Ralph A. Petersen	Aug.	30
Pneumatic Conveyors: Pipeline for Sand Handling: Geo. Mott	June	49
Maytag Co. Adopts Permanent Molding: C. B. Curtis	Nov.	83
McAfee, E. J. & K. A. Clinton: Plastics, Revolution in Patternmaking (bonus)	March	37
McCauley, J. S.: Can Mechanization Solve Manpower Shortage?	July	24
McConville, James: How We Converted to Water-Cooled Cupolas	July	41
McGowan, David: Steel Foundry Speeds Coremaking	Aug.	52
McIlrath, Roy: Antifreeze Techniques for CO <sub>2</sub> Process	Jan.	36
Mechanical Properties of Casting Alloys (bonus)	June	60
<b>MECHANIZATION</b>		
Fork Lift Trucks First Step: E. O. Spahr	April	34
New Look in Cleaning Rooms: Cecil King	June	52
Observation, Evaluation, R. A. Petersen	Aug.	30
Requires Redesigning Equipment: Glenn W. Merrefield	Sept.	57
Solve Manpower Shortage?: J. S. McCauley	July	24
3 Steps to Profitable Use of Molding Machines (bonus): J. M. Leaman & D. C. Ekey	Nov.	41
Meet Electronic Sandman: J. R. Young	Nov.	36
Meeting Detroit Demands for Castings: M. F. Garwood	Feb.	36
Megaw, R. G. & K. A. Miericke: How to Mix Molding Sand Without Water	May	94
Meloy, R. C.: Marketing, 4-Step Plan to Sell Castings	Oct.	36
<b>MELTING</b>		
Brass and Bronze (H)	Dec.	71
Defects Due to Melting, Pouring & Solidification (bonus)	July	30
Merrefield, Glenn W.: Mechanization Requires Redesigning Equipment	Sept.	57
Miericke, K. A. & R. G. Megaw: How to Mix Molding Sand Without Water	May	94
Misco Precision Casting Co. Supplies Aircraft Castings	Oct.	54
Molding Machines, 3 Steps to Profitable Use: J. M. Leaman & D. C. Ekey (bonus)	Nov.	41
Molding Sand Control: Frank Youngworth	Oct.	85
Molding Sand, How to Mix Without Water: R. E. Megaw & K. A. Miericke	May	94
<b>MOLDS</b>		
Hardening Cement with CO <sub>2</sub>	April	55
Powdered Graphite, Simplify Titanium Casting (bonus): A. L. Feild & R. E. Edelman	May	64
Reaction of Aluminum—10% Magnesium Alloy	March	26
Rx for Swollen Gray Iron Castings: J. F. Wallace & E. B. Evans	Sept.	47
Shell, Stop Look-Listen Before You Try: Arthur Woods	Dec.	50
We Owe Success to CO <sub>2</sub> : Hans Jacob	March	32
Monorail Conveyors—Moving Foundry Materials #4: Ralph G. Wieland	Dec.	30
Morgenstern, David: Vacuum Die Casting Opens New Frontiers in Design (bonus)	May	80
Line for Sand Handling	June	49
Mott, George: Pneumatic Conveyors: Pipeline for Sand Handling	June	49
Mueller, John A.: Cost-Cutting with Grinding Wheels, Part 1	Feb.	62
Cost Cutting with Grinding Wheels: 2 March	34	
Cost Cutting with Grinding Wheels: 3 April	58	
Cut-Off Wheel Selection, Part 4	June	71
Myers, O. J.: Foundry Consumption of Resins Continues to Rise	June	2
